

# GTA VC: Rectangular HUD v3.0 by CharlesVercetti

## General Information Guide

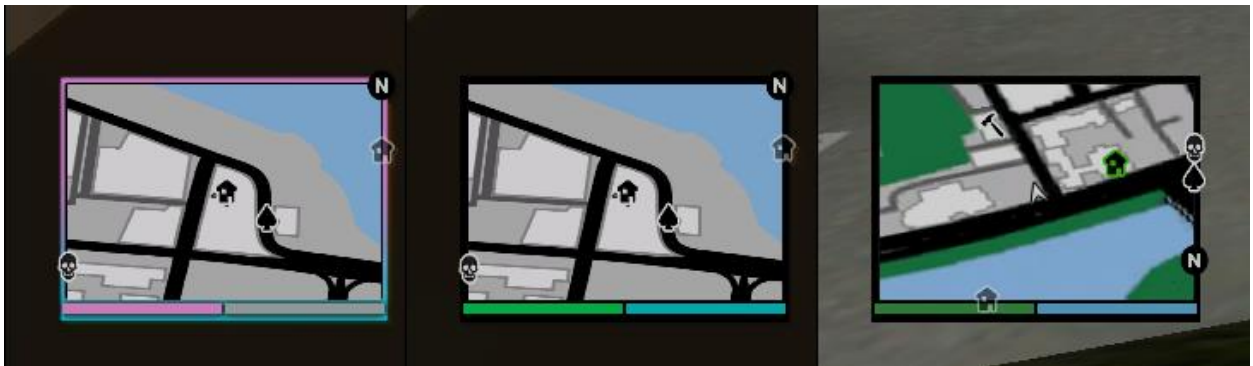

<https://gtaforums.com/topic/670360-asiiiivc-rectangular-hud/>

Visit above link for queries and bug reports.

### Features:

- Rectangular radar similar to GTA V.
- Radar repositioned to bottom.
- Car/Location texts moved to bottom and are straighter and smaller.
- Time with phone.
- Weapon and Radio wheel.
- Dynamic money counter.
- Smaller text-box.
- Mission timers similar to GTA V.
- Fonts and Radar icons similar to GTA V.

### Styles:

Classic

/

Modern

/

V style

<i>VC Style Radar</i>	<i>V Styled Radar</i>	<i>V Styled Radar</i>
<i>VC Colour schemed HUD</i>	<i>VC Colour schemed HUD</i>	<i>V Colour schemed HUD</i>
<i>1986 Tommy's Phone</i>	<i>GTA V Michael's phone</i>	<i>GTA V Michael's phone.</i>
<i>GTA V style fonts/blips</i>	<i>GTA V style fonts/blips</i>	<i>GTA V style fonts/blips</i>

### Customization:

- Position/scaling of HUD elements can be done in [rect\\_hud\\_charlesvercetti/recthud\\_VC.ini](#)
- All the texture files can be modded using MagicTXD.
- The colour of the HUD elements can be modded through [rect\\_hud\\_charlesvercetti/color\\_configs/...](#)

### New Controls:

- *Press 1 / Scroll mouse wheel to see weapon wheel ( on foot)*
- *Press 2 / Scroll mouse wheel to see radio wheel ( on vehicle)*
- *Press P to activate phone.*
- *Press Q to deactivate phone.*

### Important note:

- **Don't forget to ask for permission while hosting this on your server or something.**
- **The new folder structure is used to prevent mod stealing activities.**
- **Don't rename and repack and distribute and act like an intellectual. It won't work!**

### HOW TO INSTALL?

- Download WinRAR. <https://www.win-rar.com/download.html?L=5>
- If you had extracted this already using it, skip the step.
- Extract all the contents to your game folder.

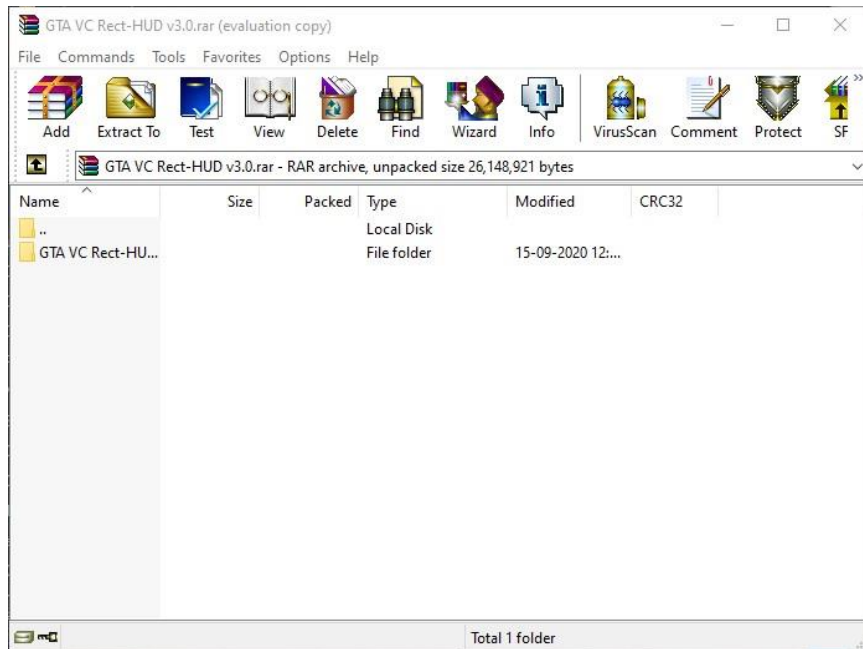

Figure 1: After opening the download with WinRAR, open the folder shown above

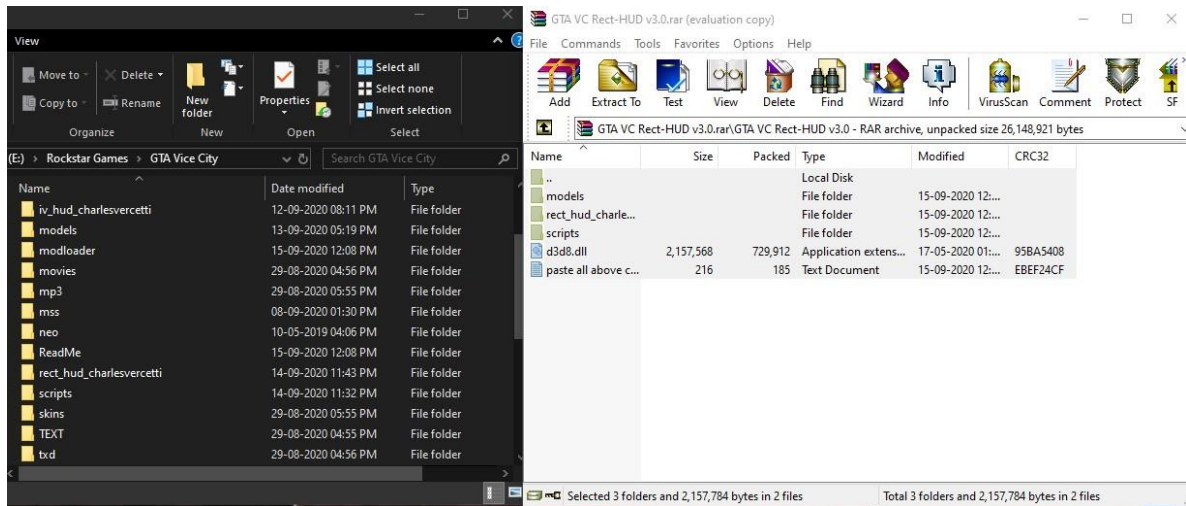

Figure 2: Select the contents inside it, drag it to your game folder. That's it !
